

Cherry

Yellow Pear

An heirloom, they grow on tall, rangy plants and bear in heavy clusters of 1 ¾ inch sized fruits. Children especially love their unique shape. Mild flavored and sweet. Indeterminate, mid

Sungold - Personal Favorite

Customer Favorite! Delicious, juicy, sweet; Sungold glows with golden orange color. Foliage is a pretty bluish green color. A treat to eat straight from the vine, warmed by the sun. Indeterminate, mid

Chocolate Cherry

Loaded with clusters of sweet little gems. The 1" cherry-like fruits are a rich brick red. Perfect for salads with an exceptional flavor that is rich and complex. Indeterminate, mid

Bumble Bee

A spectacular mix of pink with yellow stripes, yellow with red stripes and purple striped with metallic green. Round, 1", crack-resistant fruits. Indeterminate, mid

Juliet

Sweet flavored fruits shaped like grapes. Glossy red and crack resistant, they stay on the vine longer than other cherry tomatoes. Indeterminate, mid

Tumbler

Specially bred for hanging baskets. Bushy plants look fantastic mixed with lobelia and alyssum. Sweet, bright red fruits. Determinate, mid

Red Robin

An dwarf variety, great in a small pot. Round, red, fruits on compact plants 8 to 12" tall. Ideal for hanging baskets. A conversation starter for the neighbors. Determinate, early

Grapette

Thin-skinned and juicy, with a distinctive shape. Oblong fruits are produced in clusters of 16 to 40 fruits. Ideal for America's current preference for smaller, grape shaped tomatoes. Semi-determinate, mid

Super Sweet 100

These plants need staking or caging but will reward you by producing long strands of super sweet red tomatoes. Great in salads or right off the vine. Indeterminate, mid

Sugary - PF

The sweet flavor and pink skins are absolutely wonderful. Oval-shaped, slightly pointed fruits are productive and will always have place in my garden. Semi-determinate, mid

Green Grape - PF

A ripe green cherry tomato. They burst into sweet juicy goodness when you bite into them. They turn a lovely golden green when ripe. Plant in a large container on your deck. Determinate, mid

Isis Candy - PF

They are a marbled reddish color with a starburst on the underside. Sweet and fruity. Heavy yields of short trusses, in double rows, of 6 to 8 fruits each. Indeterminate. mid

2018 Tomatoes

**Jelly Bean**

Small, oblong Shaped. sweet, red cherry tomatoes grow in clusters of 15-30 fruits like grapes. They resist cracking and hold well on the vine for days. Indeterminate, mid

**Sun Sugar**

Golden-yellow fruits are a lovely contrast of tangy and sweet. A good substitute for Sungold, with Sungold being a bit sweeter. Indeterminate, mid

**Egg Yolk**

Bright yellow cherries resemble egg yolks in size, color and shape. Fruits are very sweet, with just the right amount of tartness and grow about 1" in diameter. Vigorous plants produce heavy yields. Indeterminate, mid

**Italian Ice**

Sweet and bursting with juicy flavor. Clusters of 1" to 1 1/2" fruits ripen from green to ivory white. Very prolific and delicious. Indeterminate, mid

**Red Pear - Cherry**

Miniature pear-shaped tomatoes are 1-3/4" to 2" long and bright red. Flavorful, they are great for salads and as a companion to the 'Yellow Pear'. Children love the shape and the mild taste. Indeterminate, mid

**Sun Cherry**

Bite sized, super sweet and thin skinned. What more could you ask of a cherry tomato? Vigorous plants produce a wealth of bright red fruits. Indeterminate, mid

**Chocolate Sprinkles**

This new one is the first dark tomato with a strong package of disease resistance. Dramatically colored, with faint green stripes against a dark, brick red background. Grape-shaped fruits, 1 in. by 1 1/2-in., are richly sweet and grow in trusses of 6 to 8. Hybrid vigor gives it unequalled yields. Indeterminate, mid

**Riesentraube - PF**

The name of this German heirloom variety means 'giant bunch of grapes,' Bouquet-type blossoms turn into bunches of 20 to 40 small, oval red fruit with pointed ends. Vines are covered with fruit. Flavor is excellent. Indeterminate, mid

**Super Snow White - PF**

Very sweet, ivory-colored cherry tomatoes. They reach the size of ping pong balls. These plants produce tons of tomatoes. Indeterminate, mid

**Mini Orange**

Vines produce an abundance of miniature bright, orange tomatoes. Flavor is mild and slightly tangy. Ripens from green to yellow to orange. Indeterminate, mid

**Ladybug - PF**

One of my favorites. These little fruits are resistant to cracking which is the scourge of many a cherry tomato. Not only do I love the cute name, they are really sweet, one of the first to ripen in my garden, and very prolific. Indeterminate, mid

**Blush - PF**

These 2 inch long cherry tomatoes have a surprising sweet/tart flavor and are ready to pick when the pink blush appears over the yellow background. Indeterminate, mid

**Candyland Red**

Candyland Red is the only AAS award winning currant-type tomato. Currant tomatoes are smaller in size than cherry-type and are ready to "pop" in your mouth straight from the garden. Gardeners will appreciate the dark red, sweet flavored fruit that can be enjoyed throughout the season. Indeterminate, mid

**Sweet Million**

Terrific flavor in high yields of super-sweet cherry tomatoes. Long chains of smooth, dark red, 1 to 1 1/2 fruits are produced on large plants. Matures early. Indeterminate, mid

**Matt's Wild Cherry**

Small cherry tomatoes packed with intense, rich tomato flavor, balanced with sweetness. Tall plants. Originally from Mexico, where these tomatoes grow wild. Indeterminate, mid

**Sweet Treats - PF**

Prolific wonderful pink cherry tomatoes that are fairly early and are sweet and juicy. Uniform and crack-free, ping pong sized fruits. Indeterminate, mid

**Red Currant**

This perfectly round, tiny, red tomato packs a big sweet/tart flavor! A South American variety, setting enormous clusters of fruit. Indeterminate, mid

Sweet Olive

Early maturing plant produces high yields of ¼ to ½ oz bright red grape tomatoes. They are very sweet and flavorful. Perfect for salads and snacks. Winner of the Royal Horticultural Society Award of Garden Merit. Suitable for container gardening, patios, or small gardens where space is very limited! Excellent choice for home gardens. Determinate, mid

Sweetie

Sweet-tasting. Grows exceptionally well in the home garden. Ideal for eating fresh, salads, relishes and canning. Prolific producer. Indeterminate, mid

Black Cherry - PF

Love the flavor, love how sweet it is, love the color, love how healthy the plant is! You will adore this blackish-purple skinned, cherry tomato with dark red flesh and a sweet and juicy flavor. Indeterminate, mid

Lucky Tiger

Customer Request Elongated green striped cherry tomato with a striking red blush. As Lucky Tiger ripens, the green striping becomes more defined and the background turns red as the interior marbling develops. Excellent sweet, tart flavor. Part of the Artisan series tomatoes. Indeterminate, mid

Indigo Cherry Drops

These have the same striking dark blue anthocyanin coloration over red flesh as Indigo Rose. Yield and flavor are much improved, with larger clusters of 1-2 oz. fruit. These are very sweet when ripe. Wait for them to develop a reddish tint for best flavor. Indeterminate, mid

Jolly

A lovely pink fruited cherry that has good acid content and exceptionally sweet flavor in meaty fruits that are produced in clusters of 9 to 14, weighing 1-1/2 oz. each, with a distinct peach shape and an unusual pointy tip. Indeterminate, mid

Early

Independence Day

Be the first one in your neighborhood to have ripe tomatoes this year! If planted in early May, you can have ripe tomatoes by the Fourth of July. Round, 2 to 3 inch pink fruit have a great tomato flavor which is not always typical with other early varieties. Perfect for salads and for slicing. It would be interesting to see if this beats out the fourth of July tomato. Indeterminate, early

Minibel

Bite-sized fruits are sweet and flavorsome. Plants are only about a foot in height and require no support. Covered in tasty little tomatoes. Good for containers or hanging baskets. Determinate, early

Bush Blue Ribbon

Compact habit and fruits averaging 8 to 10 oz. Featuring an exceptional sweet flavor, with lots of juice. Strong disease resistance. Perfect for containers. Determinate, early

Bush Beefsteak

Compact plant is just loaded with large, flavorful tomatoes. Well-suited for a patio, small garden and containers, the dwarf plants offer big meaty fruit (8-12 oz.) and early maturity. Determinate, early

Early Goliath

Luscious flavor and broad disease resistance add up to an early tomato that will give Early Girl a run for her money. Extra large harvests of red sweet fruits. Indeterminate, early

Siletz

Large and early, producing deep red, round fruits. Produces even during cooler weather. Another outstanding OSU intro by Dr. Jim Baggett. Determinate, early

Subarctic Plenty - PF

A really sweet tomato. Allegedly developed in the 1940's by the U.S. Military to provide fresh tomatoes to their troops in Greenland. Sets lots of 2" red fruits with sweet, "real tomato" flavor. Determinate, early

Early Girl

Bears heavy crops extremely early. Large clusters of 5 oz. fruits. Bright red and meaty with a lot of flavor and aroma. Indeterminate, early

Oregon Spring

Consistently 10 days earlier than Early Girl, Oregon Spring is compact, bearing fine flavored, nearly seedless, tomatoes. Great for cooler climates & container planting. Determinate, early

Stupice - PF

A native of Czechoslovakia, where it's extreme earliness, tolerance to cold, and high yields have earned it worldwide attention. Fruits are sweet, and 1 to 2 oz. Indeterminate, early

Polar Beauty

Developed in Alaska for colder climates, it bears small to medium-sized tomatoes with a good, full tomato taste. Short, bushy plants are productive. Determinate, early

Fireworks

One of the largest, earliest red slicing tomatoes with excellent flavor. Its bright red fruit are produced heavily on vigorous plants. Indeterminate, early

Ultimate Opener - PF

This new tomato developed by the same breeder of Early Girl and Better Boy Hybrids. Strong, vigorous plants are capable of tremendous yields. Indeterminate, early

Siberian

This might be the earliest tomato ever. Capable of setting fruits at 38F. The fruits are bright red, 3 to 5 oz. and bunch in clusters. Good for a patio. Determinate, early

Jetsetter - PF

Short season gardeners will love this variety that doesn't sacrifice size or flavor for early maturity. Tomatoes are at least 8 ozs. and often larger with good, rich flavor. Prolific yields. Indeterminate, early

Glacier

Extremely early, cold-tolerant, strain of tomato plant. Begins flowering when only 4" high. Fruits have outstanding flavor for an early tomato. Semi-determinate, early

Early Wonder - PF

Extra-early maturing and compact variety that yields an abundant crop of round, dark-pink, great-tasting fruit. Perfect for gardeners in shorter season growing climates. Determinate, early

Fourth of July

The first tomato to ripen by Independence Day (hopefully)! Enjoy the plentiful harvest about 49 days after setting plants in the garden. Determinate, early

Siberia

This may be the earliest tomato- only 7 weeks from transplanting to table. Capable of setting fruits at 38 F on sturdy, dark green plants. Fruits are bright red, 3 to 5 oz. and grow in clusters. Good for patios. Determinate, early

Bush Champion

An excellent varieties for small space gardens and containers. Compact plants grow to just 24" tall, producing extra-early yields of big, 8 to 12 oz. fruits with excellent flavor. Good disease resistance. Determinate, early

Bush Goliath

Specially developed for patio gardeners. Compact plants grow up to 3-1/2 ft. tall, have large, red, 3-4" fruits with great taste and high sugar content. Bears consistently up to frost and needs little staking. Determinate, early

New Girl

Fruits average 4-6 oz. and are better tasting and more disease resistant than Early Girl. Plus bigger yields. Good taste for an early tomato. Widely adapted. Indeterminate, early

Maskotka

A bushy, dwarf variety, especially bred for growing in baskets, where stems and fruits cascade over the sides. Plants produce a heavy crop of sweet, red fruits with good resistance to cracking. Determinate, early

Paste

Maceroma II

Main-season paste tomato with red, thick-walled, pear-shaped fruit. Large, determinate plants. Resistant to multiple diseases and great for canning/cooking. Determinate, mid

Roman Candle - PF

Beautiful, neon yellow banana-shaped fruits are bursting with sweetness and flavor. A tomato that originated as a 'sport' from Mr. John Swenson's Speckled Roman. This is a lovely tomato. Indeterminate, mid

Oregon Star

An early maturing, red, paste-type tomato, 'Oregon Star' fruits are firm making them easy to pick and to peel. The fruits are large, irregularly shaped, and tend to be seedless (parthenocarpic). The later wave of fruits that mature towards the end of the season are smaller, contain viable seeds, and are where the seed harvest comes from. The fruits keep well both on and off plant and are good for slicing as well as processing. Determinate, mid!

Orange Banana

Unique, orange, paste tomatoes, bursting with fruity sweetness. Perfect for drying, canning, and paste and fresh eating. Orange color is rare in paste tomatoes. Determinate, mid

**Principe Borghese**

Plum-shaped Italian variety favored for drying. Make your own sun dried tomatoes. Meaty tomatoes have very little juice and few seeds. Small plants are loaded with fruit. Determinate, mid

**Roma**

The number one choice for home canning and sauces for years. Fruits are medium sized and hang in large clusters. Perfect for canning. Determinate, mid

**Amish Paste - PF**

This one dates back to the turn of the century and is the best for sauces and canning. It bears large 8 oz. deep red fruits with "real" tomato flavor. Indeterminate, mid

**Opalka**

More flavorful than most paste tomatoes. It can be eaten straight off the vine, but is prized for sauces and canning. Foliage is wispy but it produces heavy crops. Heirloom from Poland. Indeterminate. mid

**Polish Linguisa - PF**

Loaded with vitamins, fiber and potassium, but low in fat and sodium! (Unlike it's meat counterpart) This 19th Century heirloom sets more fruit than most heirlooms. Fruits are large. Indeterminate, mid

**Cream Sausage - PF**

This is an paste tomato that is creamy white to pale yellow. It lights up the garden. One of the first to ripen in my garden. With mild, sweet flavor, these bushy, compact plants are perfect in a large pot. Try making salsa with this one to impress your friends with it's beautiful sunny color. Determinate, mid

**Yummy - PF**

This is a paste tomato grew by mistake. There was an error in seeds we got from a supplier and this is what came up. Fortunately, it was sweet and delicious and very prolific too. We were able to save seed from this. Indeterminate, mid

**Speckled Roman - PF**

SSE member John Swenson, developed this cross of Antique Roman and Banana Legs. Orange-red, 5" long fruits are speckled And marked by irregular yellow stripes. Meaty fruits have hearty, "real tomato" flavor and almost no seeds. Indeterminate., mid

**Sausage**

Here's an unusually shaped tomato with fruits up to 6" long, like huge, red banana peppers. A prolific paste tomato, with fine flavored meat that is especially ideal for ketchup or sauces. Indeterminate, mid

**San Marzano**

Slightly later than Romas, they have excellent flavor and hang in large clusters. Holds well on the vine and has extra-high solids for canning. The fruits are slightly rectangular in shape. Indeterminate, mid

Heirloom

**Aunt Ruby's German Green**

Don't let the color fool you, this one is good. Too me, it has a sweet almost winy flavor. Globe-shaped fruits are smooth skinned, green blushed with pink. Indeterminate, mid

**Georgia Streak**

This is a beautiful beefsteak tomato that is predominantly golden yellow with a red blush. Streaks of red run throughout the flesh. Tomatoes range from 1 to 2 lbs. and have an excellent sweet, fruity taste. From Georgia. Indeterminate. mid

**Lillian's Yellow Heirloom**

The best flavored of the yellow types, this heirloom's mild, rich taste hints of cream, and its bright yellow color adds appealing contrast. Potato-leafed plants yield large, 16-oz., meaty, juicy, beefsteak-type fruits with few seeds. Indeterminate, mid

**Nebraska Wedding - PF**

An old Great Plains heirloom Produces globe-shaped fruits of a deep orange color, weighing up to 10 oz. each. Plant yields are heavy. In the old days, seeds were given to a married couple to help them start their new lives together, hence the name. Intermediate, mid

**Bonny Best**

The famous old canning tomato introduced in 1908 by Bonnie Plant Farm in Union Spring, Alabama. Medium-sized fruit are red and loaded with flavor. Becoming hard to find. Indeterminate, mid

**Black Prince**

Named for the Gypsies who live in Russia, this is one of the deepest, maroon tomatoes. It has great color and good taste. Medium-sized fruit. A lovely introduction from Soviet plant breeders. Indeterminate, mid

**Taxi**

The best tomato variety for an early, lemon-yellow tomato. Popular heirloom. Compact, bushy, regular-leaf tomato plants that yield 4-6 oz., round, delicious, bright-yellow tomatoes that are very sweet. Determinate, mid

**Coustralee**

An heirloom variety from France, producing large red beefsteaks with ribbed shoulders. Fruit is about 4" across, quite meaty, and smoothly textured. Large crops of, beautiful tomatoes. Indeterminate, mid

**Australian Giant Oxheart**

From Australia, grown by local farmers there. Large, red oxheart shaped fruits. Regular leafed plant, albeit somewhat wispy. Good flavor. Indeterminate, mid

**Aussie - PF**

An heirloom tomato variety from Australia. Regular-leaf tomato plants that dependably yield large amounts of delicious, 1-2 lb., glossy-red, meaty, fluted, beefsteak tomatoes. Indeterminate, mid

**Costoluto Fiorentino**

Old Tuscan Heirloom variety with dark red skin. Slightly flattened with fluted shoulders. Fruits are typically about 8 ounces. High in sugar with excellent acid, good fresh or made into sauces. Indeterminate, mid

**Brandywine Yellow**

Rich and delicious-tasting large fruit, good yields. Large potato-leaf plants are sturdy and deep green. Delicious any way you eat it! Indeterminate, mid

**Brandywine Purple**

Very much like potato-leaf Brandywine, but 3 inch, fruit is darker pink to purple. Meaty with good flavors, Indeterminate, mid

**Old Flame**

Flame is an old heirloom tomato from West Virginia, dating back to the 1880s. These bicolor tomatoes look as if they are on fire. Sweet with lots of old time tomato flavor. Indeterminate, mid

**Gold Medal - PF**

A Ben Quisenberry tomato. Wonderful, 1-1/2 lb., yellow and red bicolor beefsteak tomato with pink marbling in blossom end, thin skin and luscious sweet, well-balanced flavors. Indeterminate, mid

**Mule Team**

Mild, sweet flavor. Plant bears continuously till frost. Excellent taste. It's not unusual to harvest near perfect blemish-free fruit which are also tolerant of foliage diseases. Indeterminate, mid

**Marglobe - PF**

Developed in 1917, introduced by the USDA in 1925. Good producer of 7-10 oz deep red, juicy, sweet tasting fruits. These tomatoes can claim parentage of many of today's hybrid tomatoes. Indeterminate, mid

**Mellow Yellow**

The fruits are enormous and a beautiful yellow with a red blush. Very juicy and sweet, one slice was enough for a sandwich. Despite their size, it was a bit earlier than my other heirlooms and a great producer. Indeterminate, mid

**Rose - PF**

I won the largest tomato of the 2011 Spokane County Fair with this one. A large leafy heirloom that produces deep, rose-pink, 3", meaty globes with great taste. Indeterminate, mid

**Big Rainbow - PF**

I love this spectacular heirloom tomato. Originally from Polk County, MN. Big, regular-leaf tomato plants yield crops of 1-2 lb. sweet, bicolored beefsteak tomatoes with gold flesh and lovely red streaks. Indeterminate, mid

**My Love's Pink Oxheart - PF**

HUGE pink tomatoes that are oxheart shaped, meaty, and have fantastic flavor. They have a good balance of sweet and acid. Indeterminate, mid

**Golden Ponderosa**

Very large golden-yellow fruit. Beefsteak tomatoes are sweet and mild with low acid. Indeterminate, mid

**German Red Strawberry PF**

Big, meaty and fine flavored. This German heirloom has uniform fruits averaging 10 oz. Solid meat has few seeds and little juice, yet delivers big on taste. Indeterminate, mid

**Mortgage Lifter - PF**

These long time favorites are also known as Radiator Charlie. They produce good yields of large, smooth, pink-skinned fruits and have few seeds, even in times of drought. Mild, sweet flavor. We love these! We've had 1-2 Lb. tomatoes. Indeterminate, mid to late season

Brandywine Pink

Fruit that is superior in taste and smoothness. Its tomatoes are indeed special, 1 to 2 pound pink beefsteaks with the delectably complex, rich, sweet flavor that has made Brandywine justifiably famous. Indeterminate, late

Brandywine, Red - PF

It produces medium-sized, 8 to 12 oz. round, smooth red fruit that are juicy and loaded with intense tomato flavor. Expect high yields of this very flavorful tomato. Indeterminate. mid

Kellogg's Breakfast - PF

One of our favorites. Lovely, pale-orange fruits are solid and meaty throughout, packed with mild and delicious. Large, beefsteak-type fruits, up to 16 oz., Indeterminate, mid

Amana Orange - PF

Deep golden orange fruits are mild, sweet, delicious and the flesh very smooth to the tongue. This heirloom takes its name from Amana, Iowa. Indeterminate, mid

German Johnson Pink

An old-time favorite heirloom from the East features tall plants and a fairly early harvest of large, slightly ribbed pink-red tomatoes averaging 1 lb. Meaty with few seeds and really excellent flavor. Indeterminate, mid.

Box Car Willie

An Heirloom producing a nice crop of good-sized, smooth red tomatoes with delicious flavor. Indeterminate. mid

Caspian Pink

Originally grown in southern Russia between the Caspian and Black Seas. These prolific, 1-2 pound, globe-shaped, pleated, pink-red beefsteak tomatoes that rival Brandywine in popularity and flavor. Perfect for cooler climates. Indeterminate, mid

Pineapple - PF

I didn't get a lot but its worth the real estate. The first one I ever picked was a "two hander" size! When I sliced it in half, I knew I was in love. The interior was a beautiful collage of orange, gold and red. Juicy and fruity sweet. Indeterminate, late

Coure de Bue

This Italian heirloom has been a favorite in Italy for many years. Fluted, beautiful fruit has a delicious sweet taste; similar to the shape of a heart; great for fresh eating or saucing. Large vigorous vines. Indeterminate, mid

Rose De Berne

This Swiss émigré could be considered the Brandywine of continental Europe. Beautiful, nicely-shaped 4-to 8-oz fruit are a rose-pink color and have an excellent sweet flavor. The vines set good yields. Intermediate, mid to late.

Ananas Noir - PF

Ananas Noir is French for black pineapple; it arose out of a planting of Pineapple in a Belgian garden. The exterior is dark purple and green with pink-red splotches and a touch of yellow, inside is bright green streaked with pink. Sweet and delicious. Indeterminate. mid

Black from Tula - PF

A large 8-12 oz. dark tomato with a rich, deep purplish-brown color. Some seed savers say it is the best tasting of all the dark tomatoes. Very rich, old-fashioned flavor, sweet and spicy. A rare Russian heirloom. mid

Anna Russian

An heirloom oxheart variety from a Russian immigrant. Early maturing for a heart-shaped tomato, the large, pink-red fruit normally weighs about 1 pound. Superb old-fashioned flavors with lots of juice. Indeterminate. mid

Giant Green Love Apple

Given to us by one of our customers. who got this from relatives and said we could name it. It is a lovely, large, golden green tomato that is sweet and juicy. My honey forgot to tell me that it was green when ripe so I waited. And waited. Finally got the memo and it was a hit. Indeterminate, mid

Vintage Wine - PF

One of the very few pastel-hued tomatoes. A favorite of my customers, with attractive, 1lb., pale pink/red fruits set off by golden stripes. Elegant, sweet and tasty, with a nice, mild flavor. Indeterminate, mid

Carbon - PF

Large, sweet and pretty. Big, regular-leaf tomato plants yield 10-14 oz., beautiful purple-black tomatoes. Delicious, rich, complex flavors. This tomato variety won a taste test of 10 heirloom tomato varieties at Cornell Research Farm. Indeterminate, mid

Paul Robeson

Russian heirloom named after the operatic artist who won acclaim as an advocate of equal rights for Blacks. A dusky, dark-red, with dark-green shoulders, and red flesh. Fine flavor with a good acid/sweet balance. From Siberia, it's good for cooler growing regions. Indeterminate, mid

Cherokee Purple

Reliable producer of medium pink-purple fruits that average 8 to 12 oz. Fruits are round to oblate, with no cracking. Exhibits tolerance to mild drought as well as to common diseases. Indeterminate, mid

Red Pear (Large Italian)

A pear-type tomato, this one is large and somewhat ribbed with thin skin and a delicious, slightly sweet flavor. It bears a large number of fruit, which are good enough to eat fresh, but also perfect for cooking. Indeterminate, mid to late

Jubilee

"All American Selection" winner in 1943. This heavy yielding, golden-orange fruit weighs 6 to 7 ounces each, is mild tasting, but has good tomato flavor. Solid fruit with few seeds. Indeterminate, mid

Moonglow

Perfect-looking golden-orange tomato: smooth and medium-sized. Fine flavored, rich and fruity. These are good producers of consistent looking fruit. Indeterminate, mid.

Kim's Civil War Oxheart

A new 2015 release from Victory Garden Seeds- "Sent to us by Linda Taylor of Boring, Oregon who received seeds from a neighbor. The family has been growing it since the Civil War-era. They are large, up to 20 oz with a beautiful, pink heart shape. The regular leaf vines are huge. Indeterminate, mid

Mountain Gold

A yellow-fruited tomato superior in disease resistance and plant habit. This open-pollinated variety was released in 1993. Bred by Dr. Randolph G. Gardner in North Carolina. Determinate, mid

Old German

A favorite in the Virginia Mennonite community. Yellow fruits have a red center, visible on the surface and throughout the core. They often weigh over a pound, with few seeds. Indeterminate, mid to late

Giant Tree Tomato- PF

10 to 18 ft. vines have strong stems and heavy thick leaves. Globe-shaped, pinkish-red fruits, with few seeds, are smooth and weigh 1 - 2 lbs. Indeterminate, mid to late

Chianti Rose

Cross between Brandywine and an unnamed Italian variety. Chianti Rose produces huge crops of 1-2 lb. beautiful, thin skinned, rosy red-pink, tomatoes with well-balanced, complex flavors. Good variety for cooler regions. Indeterminate, mid

Black Krim

Deep, dark red with green shoulders. The interior is a reddish green color. They are an heirloom for the Crimean peninsula of Russia. Producing 10-12 oz. fruits, they set well in heat. The flavor is rich, earthy, almost smoky. Indeterminate, mid

Arkansas Traveler

A medium-sized pink tomato that ripens to a beautiful rose color. From Ozarks in Arkansas, tolerant to heat and humidity; crack and disease resistant. Good flavor. Indeterminate, mid

Abraham Lincoln

This old-time variety produces many 6 to 10 oz tomatoes, packed with great tomato flavor. Popular since the early 1920's, it's no wonder considering its productivity and flavor. Indeterminate. mid

Orange Russian - PF

Arguably, the most beautiful tomato I've ever seen! Tomatoes are usually heart-shaped with golden flesh marbled with streaks of red. I have grown some that were almost 3 pounds. Fruity and dense with few seeds. Indeterminate, mid to late

Black Sea Man

A Russian Heirloom tomato. Plants yield tomatoes with a rich mahogany and olive green shoulders. Inside is deep, reddish green and loaded with flavor. This tomato does well growing in containers. Determinate, mid

**Great White - PF**

Sweet and fruity, perfect for salads and sandwiches. An almost perfect, "white" tomato with low acidity and few seeds. When ripe, the fruit will have a very smooth creamy white texture. Indeterminate, mid

Main Season

**Goliath**

Beautiful, smooth, bright-red fruits average 10 to 15 oz., with a sweet luscious flavor. Tall, plants will produce lots of these perfectly shaped tomatoes. Multiple disease resistance. Indeterminate, mid

**Legend - PF**

Legend has shown a strong tolerance to blight. Round, shiny red fruits, with sweet flavor and just a little acid to add a touch of zing. Nice tomatoes with skin that feels kind of velvety. Determinate, mid

**Floralina**

Plant produces good yields of large red tomatoes. Developed by North Carolina State University and the University of Florida. Good flavor and disease resistance. Determinate, mid

**Big Boy**

The Big Boy hybrid tomato debuted in 1949, What's kept Big Boy tomato a best-selling tomato all these years is the wonderful aroma and rich flavor. The fruits are large, up to 1 pound or more. Indeterminate, mid

**Kosovo - PF**

This variety came from a former U.N. worker in Kosovo. Huge, deep pink heart-shaped fruit has a sweet rich flavor and is very meaty. Production was excellent. Tomatoes can grow up to 1 pound. Indeterminate, mid

**Pretty in Pink**

Pink tomatoes are the latest rage, so we went to Asia where pinks out-sell reds to get this new gem. Loads of sweet, mild, 6 to 8 oz., disease resistant fruits with Slightly fluted shoulders. Indeterminate, mid

**Celebrity**

This AAS Award Winner established a new standard for main-crop hybrids requiring multiple disease resistance. Medium sized, globe-shaped fruits are crack-resistant and average 7 oz. .Semi-determinate, mid

**Delicious - PF**

Excellent slicer, most fruits weigh 1 lb. and still holds the world record of 7+ pounds for a single fruit! Produces smooth and solid fruits that seldom crack, with small cavities, nearly solid meat, and excellent flavor. Indeterminate, mid

**Homestead**

This densely foliaged plant produces very firm, dark red, flattened globe shaped fruit, each weighing 7 to 8 ozs. Does well in hot or humid weather. A great choice for canning! Determinate vines, mid

**Mister E - PF**

This is a seed we saved from Big Zac. Our seed reverted back to one of it's parent which was a larger, open pollinated pink tomato. It is very sweet and lovely. These are large. Indeterminate, mid

**Better Boy**

A spectacular, midseason variety with plump, juicy, deep red tomatoes that often weigh more than one pound. Very flavorful, with flesh that's juicy, yet firm. Indeterminate, mid

**Mountain Fresh Plus Hyb**

One of the most sought after Mountains, as it features better flavor and larger, 8 to 16 ounce fruits than either Mountain Pride or Mountain Spring. Very firm and flavorful. Determinate, mid-late

**Beefmaster Hyb**

Beefmaster Hybrid routinely wins the size award at county fairs and contests. This massive beefsteak-type is not only huge but very heavy-bearing, with stunning yields over a long season on indeterminate vines. Some grow as large as 1½ pounds. Good flavor. Indeterminate, mid-late

**Ace 55**

Ace 55 has excellent fresh tomato flavor. Large, deep red fruit with low acid content, one of the few red tomatoes to make that claim. Crack-resistant. Determinate, mid

**Rutgers**

All-purpose variety, ideal for canning. Ripens evenly from inside out. Bright red fruits with heavy walls average about 7 oz. Attractive, old-time favorite that has been around a long time. Full-bodied flavor and disease resistant. Indeterminate, mid

Unusual

Janet's Jewel WB

Large, bright orange striped, beefsteak fruits - many weighing over 1 pound each! Very meaty and sweet tasting with fruity undertones. Late but worth the wait.. Indeterminate, mid

Chocolate Stripes - PF

Fruit is deep reddish-brown inside; the outside has beautiful greenish stripes. One of the most unique looking tomatoes, sweet with a full-rich flavor. Fruit is medium to large and are of a slightly flattened globe shape. Indeterminate, mid

Green Zebra

Fully ripened fruits are bright green, with stripes of a still lighter green. Round, smallish, fruits have excellent, tart, "real tomato" flavor. Plants are vigorous. Determinate, mid

Red Zebra

This is a red version of the popular "Green Zebra"; fire engine red fruit, covered with bright yellow stripes. Sweet and flavorful, this is a prolific grower. Intermediate, mid

Dwarf (TreeType)

Dwarf Lucky Swirl

A rugose, regular leaf variety that produces medium-large (five to twenty ounce), yellow and red bi-color fruits. The fruits are smooth, slightly ribbed, oblate in shape, juicy and meaty with a nice mild and sweet flavor. This is another tomato bred by The Dwarf Tomato Project

Dwarf Fred's Tye Dye

Rugose regular leaf foliage produce medium sized round purple tomatoes with jagged gold and green stripes and the deep crimson flesh of black tomatoes. 5-6 oz. Rich, intense, and balanced flavor. Tree Type, mid

Dwarf Mr. Snow

Plants with rugose potato leaf, 5-12 oz flattened beefsteaks with smooth shoulders, pale yellow color inside and out, very meaty flesh with small seed cavities and not many seeds. Very nice sweet flavor with a hint of citrus medium. Tree Type, mid

DAYS TO MATURITY

I changed actual days to a seasonal range since our weather is so unpredictable, There are some years I think of tomatoes as a fall crop!

Very Early - 54 days or less

Early - 55-69 days

Mid-season - 70-84 days (*most of them are mid-season*)

Late Season - 85 or more days (*late yes, but the flavor makes it worth the real estate*)

I have designated some varieties as "mid to late season". Some of the "late" season varieties have given me ripe fruit before others. It's confusing even to me. So choose what you like and experiment. What grows well for me may not do as well for you and vice versa. I even have varied results from year to year.

NEW: Plant Tags

Never, ever, forget what plant is planted in your garden and where . . . or what it's supposed to look like when it is ripe or flowering!

We have colorful tags for all of the tomatoes, peppers, flowers and vegetables we sell. The tags are 4.25 X 5.5 inches. I can also create custom tags with your pictures.

These beautiful, weather resistant tags are interchangeable from year to year and help you and your visitors know what is being grown. They add color to your garden.

If purchased locally and picked up, you'll receive a 5.5 X 4.25 laminated tag, a paint stick and a binder clip. If you need them mailed, the paint stick and binder clip won't be included and postage will apply.

Individual pre-made tags are \$3.20 plus tax

All orders must be prepaid

Digital tags are available for download on my Etsy store (<http://www.etsy.com/shop/FlowerchildCardShop>) complete with instructions on how to print and laminate then. You'll be able to print out as many as you like. Tags can only be used for personal use. Commercial operators can contact me for terms of retail distribution.

Tip They will last a long time if you don't leave them in the garden all winter long. Sun will eventually fade these, so place them in area that isn't facing the sun all day.

Customer Favorite! Delicious, juicy and sweet. Sungold grows with an golden orange color. Foliage is a pretty bluish-green color. The best cherry tomatoes I've eaten. They are a treat to eat straight from the vine, warmed by the sun. Everyone who sees one, always comes back for more. Prolific and early! WOW your friends with a salad composed of white, gold, red, green and purple cherry tomatoes. Indeterminate, mid-season
